Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-49 are rejected under 35 U.S.C. 102(e) as being anticipated by Kaylani (Pub. No.: US 2004/0230997).

The applied reference has a common assignee with the instant application.

Based upon the earlier effective U.S. filing date of the reference, it constitutes prior art under 35 U.S.C. 102(e). This rejection under 35 U.S.C. 102(e) might be overcome either by a showing under 37 CFR 1.132 that any invention disclosed but not claimed in the reference was derived from the inventor of this application and is thus not the invention “by another,” or by an appropriate showing under 37 CFR 1.131.

Regarding claim 1, Kaylani discloses a single chip integrated DTV receiver showing an inband receiving step (110), a digital inband demodulator (202), an out-of-band signal receiving step (note input to digital OOB demodulator 604), and a digital OOB demodulator (604) which meets the processing step as claimed.

Regarding claim 2, see paragraph 0038.

Regarding claims 3-5, Kaylani shows forward error correction step (paragraph 0069) which inherently generates signals compliant with at least one of Annex A, Annex B and Annex C of ITU-T J.83.

Regarding claims 6 and 7, see paragraph 0053.

Regarding claim 8, see paragraph 0037.

Regarding claim 9, see audio decoder 304.

Regarding claim 10, see paragraph 0037.

Regarding claims 11 and 12, see paragraph 0053.

Regarding claim 13, see paragraph 0069.

Regarding claim 14, see paragraph 0053.

Regarding claim 15, see paragraph 0069.

Regarding claim 16, see paragraph 0036.

Regarding claims 17-44, 46-48, see the corresponding rejections as recited above.

Regarding claim 45, the FEC properties mentioned in paragraph 0069 is intended for DVS-167 or DVS 178 compliant, or any other known compliant.

Regarding claim 49, the tuner mentioned in paragraph 0037 inherently includes a third overtone crystal for generating a 54 MHz clock signal.

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Ina (7,043,750) shows an inband tuner and out-of-band tuner.

Art Unit: 2622

Ozawa et al. (7,023,858) shows an out-of-band tuner.
